11.7 The winning coach of any athletic event has the responsibility of contacting the news media and giving event results. This is extremely important for it allows the students to be given the proper recognition of athletic achievements.

11.8 Athletic Safety Guidelines
A. Heat Related Illnesses

All teams will follow the current "Heat Acclimatization Policy" - Policy 41 -adopted by the FHSAA. During the entire season coaches will monitor all athletes for signs of any heat related illnesses. Coaches will make water accessible to players at all times. At any time if a player asks for water it must be given. Coaches will never withhold water as a disciplinary tool. If player shows signs of a heat related illness, they must be allowed water, rest, and immediate medical care as needed. Coaches will stress the importance of proper hydration to players in relation to pre-practice, practice, and post practice times. Water consumption should be mandatory during scheduled breaks. Athletic trainers have the authority to withhold any player from participation who shows signs of a heat related illness. If a player is suspected to be having a heat stroke emergency medical assistance (911) should be sought immediately while making every effort to cool the athlete's body temperature until emergency care arrives.

Monitoring Heat Stress. The following governs procedures for monitoring heat stress (§ 1006.165, F.S.): Each school must monitor heat stress. Heat stress is determined by measuring the ambient temperature, humidity, wind speed, sun angle and cloud cover at the site of the athletic activity. The following guidelines are to be adhered for the following heat stress readings (as suggested by the FHSAA SMAC):

Reading Permitted	Activity
≤ 82.0	Normal activities.
82.1 - 87.0	Three (3) separate four (4) minute rest breaks per hour of activity.
87.1 - 90.0	Maximum two (2) hour activity time. Four (4) separate four (4) minute rest breaks per hour of activity. For football, student-athletes are restricted to helmet, shoulder pads and shorts during activity.

90.1 - 92.0	Maximum one (1) hour activity time. Five (5) separate four (4) minute rest breaks. No protective equipment permitted. No conditioning activities permitted.
≥ 92.1	No outdoor activities.

A Wet Bulb Globe Thermometer (WBGT) should be used to measure heat stress. A WBGT reading should be taken 30 minutes prior to any scheduled outdoor practice start time and then should be continually monitored at least every hour until the conclusion of practice (to monitor for any indicated modifications to practice length, rest breaks, or equipment). Schools must complete the Heat Stress Measurement and Record Chart (Appendix E) for all outdoor activities.

Cooling zones must be available for each outdoor athletic contest, practice, workout or conditioning session. Cooling zones must include the immediate availability of cold-water immersion tubs or equivalent and can also include the following: ice sponges and towels or tarps that can be filled with ice and wrapped around individuals to rapidly cool internal body temperature. The presence of an employee or volunteer trained to administer cold-water immersion is required. Each school's emergency action plan must include a procedure for onsite cooling using cold-water immersion or equivalent means before a student-athlete is transported to a hospital for exertional heatstroke. Coaches must adopt a heat injury prevention philosophy by promoting unrestricted access to water at all times and a student-athlete should never be denied access to water. Student-athletes who participate in activities that last for an extended amount of time or multiple activities in a day should be provided electrolytes to assist in rehydration. Rest breaks must involve unlimited hydration intake and rest without any activity involved. Each athletic coach involving outdoor practices or events shall annually complete training in exertional heat illness

identification, prevention and response, including the effective administration of cooling zones.

B. Concussions

Any player who is suspected to have suffered a concussion may not re-enter participation until cleared in writing by an approved medical professional. A player who has suffered a concussion should follow a graduated protocol as prescribed by the health care provider.

C. Emergency Action Plans

Each sport coach will work with the school's athletic director to develop an emergency action plan for use with an injured or unconscious team member. This plan needs to be posted and practiced. This plan must be filed with the school's principal or athletic director. This plan must be updated annually.

Schools must have an Emergency Action Plan for each home venue. The plan should be on file with the principal or athletic director, shared with all athletic staff, and Key steps of the plan must be posted at each venue.

D. Sudden Cardiac Arrest

Cardiopulmonary Resuscitation (CPR). It is strongly recommended that all coaches, whether paid or volunteer, are regularly trained in CPR. Training is encouraged through agencies that provide hands-on training and offer certificates that include an expiration date. In accordance with § 1006.165, F.S., each member school must adhere to the following

requirements for Automatic External Defibrillators (AEDs):

Automatic External Defibrillator (AED). Automatic external defibrillators (AEDs) must be available in a clearly marked and publicized location for any athletic contest, practice, workout or conditioning session, including those conducted outside of the school year.

Beginning June 1, 2021, a school employee or volunteer with current training in cardiopulmonary resuscitation and use of a defibrillator must be present at each athletic event during and outside of the school year, including practices, workouts and conditioning sessions. All employees or volunteers who may be reasonably expected to use a defibrillator must complete training in cardiopulmonary resuscitation or a basic first aid course that includes cardiopulmonary resuscitation training. Each individual required to complete the training must be notified annually of the location 20 of each defibrillator on the school grounds.

E. Lightning Safety and Severe Weather

These guidelines should be followed by all groups holding outdoor activities (PE classes, practices, events, or games).

1. Staff should monitor local weather conditions before and during all outdoor activities.
2. Have an evacuation plan that includes a nearby safe area where all members of activity can relocate if the need arises.
3. Criteria for suspension or resumption of outdoor activities:
 - a). When thunder is heard or lightning is seen*, the leading edge of the thunderstorm is close enough to strike your location with lightning. Suspend play for at least 30 minutes and vacate the outdoor activity to a previously designated safer location.

b). 30 Minute Rule: Once play has been suspended, wait at least 30 minutes after the last thunder is heard or lightning is witnessed* prior to resuming play. Any subsequent thunder or lightning* after the beginning of the 30-minute count will reset the clock and another 30-minute count should begin.

c). Lightning detection devices and aids: When lightning detection devices or mobile phone apps are available, this technology could be used to assist in making a decision to suspend activity if a lightning strike is noted to be **within 10 miles** of the event location. However, hearing thunder or seeing lightning* should always take precedence over information from a mobile app or lightning detection device. For all outdoor activities, there must be at least one staff/faculty member subscribed to and monitoring weather alerts from SkyGuard through BDS. Requests to subscribe to SkyGuard should be made to Marcia Avery (averyml@bay.k12.fl.us).

d). Coaches, officials, and administrators have the authority to stop play at any time in which lightning is determined to pose a threat.

* - At night, under certain atmospheric conditions, lightning flashes may be seen from distant storms. In these cases, it may be safe to continue an event. If no thunder can be heard and flashes are low in the horizon, the storm may not pose a threat.

Independently verified lightning detection information would help eliminate any uncertainty.

Note: These guidelines are aligned to those of the National Federation of State High School Associations.

ARTICLE 12 - CONTESTS WITH NON-MEMBER SCHOOLS

12.1 Member schools are not allowed to participate in activity contests with middle schools outside Bay County, nor are they

permitted to schedule activity events with non-member schools within the County unless prior approval has been obtained from the Board of Directors.

Tickets for the football jamboree or regular season games scheduled at Tommy Oliver Stadium, Bozeman Stadium, and Mike Gavlak Stadium shall be \$4. All tournament tickets will be \$4 for students and adults. The admission price shall be charged for all athletic events unless circumstances approved by the Principal warrant the waiver of the admission price.

13.2 Staff of participating schools, coaches with VIP cards and their family shall be admitted free when an admission price is charged. Pre-school children will be admitted free.

13.3 Chaperones and bus drivers who transport players and/or cheerleaders to games shall be admitted free when a charge is in effect.

The purpose of this meeting shall be to schedule activity contests for the following school year. All schools shall have representation at this meeting. There will be no scheduled activity contests on Saturday (unless an approved tournament), Sunday, or any student holiday.

14.2 Before the first regular season contest in any sport, a school may request a change in a specific playing date or time. Both Principals must agree to the change in playing date or time. After the first regular season game has been played, all

remaining games will be played as scheduled. Games may also be postponed by consent of the two participating Principals for other justifiable reasons, except conflict with another school activity. The Athletic Director of the home school will be responsible for contacting the County Athletic Director, news media and officials to report a postponed game. The Principals of the participating schools will agree on a rescheduled date. In case the game/match cannot be rescheduled, it will be rated not having been scheduled.

14.3 In the event of inclement weather on the day of an athletic event, each school's principal and athletic director will make the decision on playing or postponing all games.

14.4 Home team shall be indicated on all athletic schedules.

14.5 No athletic tournaments will be allowed unless approved by the Board of Directors.

14.6 Each school will be allowed to host one female and one male athletic event annually to be played before the student body. Each school will decide which two athletic events they want to schedule for their student body. The two events will be held on activity day scheduling. There will be free admission to all students.

14.7 The host team of all athletic events will keep all gate receipts.

14.8 Clock and scorebook personnel who work contests will be assigned at the discretion of the host school. However, it is recommended that adults be used to operate basketball clocks, but students who are qualified may be assigned at the discretion of the host school.

14.9 OFF SEASON GUIDELINES - The starting date of practice and the last game of the season is considered as in-season for all sport areas. Off-season is defined as any time during the school year in which that sport is not in-season. No practices shall take place during the off-season. Coaches may hold conditioning sessions and may supervise open facilities sessions during the off-season for students who have all athletic forms on file and have viewed the three required safety courses on nfhslearn.com. All clinic participants must complete and sign the Bay District Schools Athletic Summer Camp Student Permission Form for District Sponsored Camp. The school sponsoring the camp must keep a copy of this form.

14.12 Scrimmage between schools is strictly prohibited. Scrimmaging between schools is not considered practice but is defined as a competitive game between two schools.

ARTICLE 15 - CONTRACTS

15.1 No official written contracts are required for activity contests; however, each Principal is required to check the composite schedule sent to him/her by the County Athletic Director for conflicts, deletions, or additions in his/her schedule. If a mistake is found, the Principal shall notify the County Athletic Director so that the necessary corrective measures may be taken.

The Application for Volunteer Coach form

D. Volunteers shall have no contact with students until they have been cleared and issued a current District Volunteer ID Badge.

ARTICLE 17 - COACHES CERTIFICATION / REQUIREMENTS

17.1 Coaches of interscholastic teams who receive supplements or receive payment to coach from a booster club shall be certified teachers or non-instructional who have completed the qualifications to become a certified athletic coach. These coaches must annually view and show proof of completing the three required safety courses on www.nfhslearn.com. Courses are titled: "Concussion in Sports", "Heat Illness Prevention", and "Sudden Cardiac Arrest". No contact with athletes shall take place prior to completing these courses. Athletic Director shall keep on file proof of course completion for each coach. Coaches who do not have state certification may not supervise students without a state certified teacher or coach present. All volunteer non-paid coaches must meet the guidelines as printed in Article 16.2.

ARTICLE 18 - ELIGIBILITY LISTS AND REPORTS

18.1 Three (3) school days prior to the first regularly scheduled contest, the Athletic Director of each school shall forward the eligibility list (must be signed by the school Principal and Athletic Director) of all students who are competing in that sport area, to the County Athletic Director. Exception: first time 6th graders are automatically eligible for the first nine weeks. After eligibility has been established a student who fails more than one (1) subject, or has less than a 2.0 grade point average from a nine weeks grading period is ineligible for interscholastic or extracurricular activities for the next nine weeks grading period. Eligibility status can only be changed at the end of each nine weeks period and is based on all grades first reported for those classes. Exception: A student who completes work due to an extended illness, supported by a physician's report, or other excused absence may have his/her eligibility status changed once all work is completed and course grade is changed. A student who experiences a change in eligibility status will become eligible or ineligible on the sixth school day of the new grading period. These rules apply to all extracurricular activities.

19.2 A student who fails and did not participate in athletics (was not turned in on an eligibility sheet) during the failure year, would be eligible the second nine weeks grading period of the repeat year provided the student has a 2.0 grade point average, with no more than one F and meets all other requirements.

19.12 Ejections: A student ejected from an athletic competition shall not participate in the remainder of that contest and shall not participate in the next competition in that sport. If the ejection occurs in the last contest for that sport season the student shall be suspended from the first competition in the next sport of participation.

19.13 Sixth grade students will be allowed to participate in any interscholastic sport, as a player, manager or scorekeeper.

19.14 Athletic uniforms will be in school colors and with appropriate numbers.

Exception: parents may pick up students at the away match site upon a personal and verbal request to the coach. If a student is to be transported by another parent/relative, proper permission has to be obtained. Proper permission must be completed in advance of the trip. Proper permission is defined as: the student must bring a consent note, signed by a parent/guardian and naming the person who has permission to pick up the student. The note must be presented to the coach. Upon approval by the coach, the coach will allow the student to be transported by the person named on the note.

These students should notify the coach or athletic director of their interest in participating on a team as soon as they know they will be relocating to our district. These students will be judged using the same criteria as in original tryouts and their scores must meet or exceed the cut off level of those previously selected. No student selected during regular tryouts will be dismissed from a team based on additional members added at a later tryout. Principals can decide to not offer late tryouts if it is determined that the season would be over before the student could be integrated into the team. Students should understand that factors such as uniform production is not under the control of the school and could further delay the student's ability to participate fully.

19.20 Dual Participation by Student

If a student wishes to participate in two or more activities in the same season the student must work out an agreement in advance with all the coaches / sponsors / directors involved. If agreements cannot be reached then the student must decide which activity they will participate in. It should be understood that participation in multiple activities is not always possible during the same season. If a student participates in two or more sports that overlap in time the coach of the sport which started first has the option of allowing the student to participate prior to their sport ending or withholding the student until the completion of their season.

19.21 "Dropping Out" of an Activity

If a student "drops out" of one activity in a specific area (Athletics, band, chorus, and academic) he/she cannot try out for another activity until the conclusion of the first activity. "Dropping out" shall be defined as a voluntary absence from the team (Involuntary action would be for medical reasons only). Any exceptions would have to be approved by the Athletic/Band/Choral Directors and Principal.

19.22 COMBINATION SCHOOLS (Grades k -12 or 6-12)

Students in grades 6th - 8th at combination schools may not participate in both middle and high school athletic programs. Participation includes open facilities, offseason conditioning, practices and competitions. If a student in grades 6th -8th participates in a high school athletic program at a combination school they will be prohibited from participating in all middle school competitive athletic programs at that school while in grades 6th - 8th. Middle school teams and high school teams may not practice together, but may share facilities.

Exceptions:

Try outs. Students in grades 6th - 8th who participate in a high school tryout may return to middle school play if they do not make the high school team. The tryouts must not last more than two days. After the first two days the student and the school must decide at which level the student is going to participate. If participation goes beyond two days the student must play only at the high school level. Note: If the middle school season

starts first, students may not try out for the middle school team and then move up to high school level.

Penalty Kick Procedures: The head coaches and team captains for both teams will meet with the officials at the halfway line to review the procedure for penalty kicks as follows: (1) The referee will choose the goal at which all of the kicks from

the penalty line will be taken. (2) Each coach will select any five players, including the goalkeeper, on or off the field (except those who may have been disqualified) to take the penalty kicks. (3) A coin toss will be held. The team winning the toss will have the choice of kicking first or second. (4) Teams will alternate kickers. There is no follow-up on the kick. (5) The defending team may change the goalkeeper prior to each penalty kick. (6) The team scoring the greatest number of these kicks will be declared the winner. (7) Add one goal to the winning team score and credit the team with a victory. If the score remains tied after each team has had five penalty kicks: (8) Each coach will select five different players than the first five who already have kicked to take the kicks in a sudden victory situation, wherein if one team scores and the other team does not score, the game is ended without more kicks being taken. If a team has fewer than 10 available players at the end of the first set of kicks from the penalty mark due to either injuries or disqualification, the coach must use all players who have not participated in the first five kicks. The coach may choose additional players from the first five kickers to ensure that five different players participate in the second set of kicks. **BAY DISTRICT SCHOOLS
CITIZENSHIP STANDARDS FOR PARTICIPATION IN
EXTRACURRICULAR ACTIVITIES**

SECTION I INTRODUCTION AND PURPOSE

INTRODUCTION

Extracurricular activities are defined as activities or events which do not fall within the scope of the regular curriculum, which are officially recognized and sanctioned by the School Board, and for which students do not receive academic credit. Performing groups that receive academic credit, i.e., band, chorus, and drama are not included within this policy.

Student participation in extracurricular events is a privilege. Extracurricular activities are important components of our total educational program. In order to maintain eligibility, each student is expected to exhibit good citizenship and abide by all State, School Board, School team/club, and the rules and regulations included in the BDS Middle School Extracurricular Activities Handbook.

PURPOSE

1. To provide minimum citizenship standards among all Bay District Schools (includes high and middle schools) for participation in school sponsored extracurricular activities.
2. To encourage the importance of a sense of responsibility as a positive role model.
3. To enhance the growth of good citizenship among participants in school sponsored extracurricular activities.
4. To recognize and assist those students who have demonstrated an inability to comply with guidelines set forth herein.

**SECTION II.
APPLICATION OF STANDARDS**

These standards apply to all extracurricular activities as defined above, whether they are school sanctioned or School Board approved. These standards apply to the participant in any activity for the duration of the activity season, whether it occurs prior to the start of the school year or after the close of the school year, including summer. Students shall also comply with the conduct required by the Bay District School Board (The Student Code of Conduct and Discipline) and the regulations contained in the individual school's Student Handbook.

**SECTION III.
CITIZENSHIP STANDARDS**

Students who participate in extracurricular activities are expected to abide by the following list of citizenship standards. Sanctions for noncompliance are shown.

1. CITIZENSHIP STANDARD: BDS RULES

A student who participates in extracurricular activities will not violate any rules or regulations as set forth in the BDS Middle School extracurricular activities handbook.

SANCTION

The student will be penalized according to the rules administered by the Bay County Middle School Activities Association.

2. CITIZENSHIP STANDARD: TEAM/CLUB RULES

A student who participates in extracurricular activities will not violate team/club rules as established for participation in an activity. It shall be the responsibility of the coach or sponsor to formulate written rules with appropriate sign-off procedures and distribute them to the parents and students.

SANCTION

The coach or sponsor may suspend the student from participation. This may be for one event or for the duration of the activity season. This shall be at the discretion of the coach or sponsor based upon the severity of the offense and the rules

established.

3. CITIZENSHIP STANDARD: SCHOOL ABSENCE

A student who participates in extracurricular activities must be in classroom attendance at least two hundred (200) minutes on the day of the event.

SANCTION

At the discretion of the Principal, the student may be able to participate, in the event, on the day the student is absent from school.

4. CITIZENSHIP STANDARD: IN SCHOOL SUSPENSIONS

A student who participates in extracurricular activities and is assigned to in-school suspension will be eligible to participate.

SANCTION

The student may participate if he or she meets the requirements of in-school suspension.

5. CITIZENSHIP STANDARD: OUT OF SCHOOL SUSPENSION

A student who participates in extracurricular activities will not violate school rules that result in out of school suspension.

SANCTION

Under School Board policy, a suspended student is prohibited from participating in, or attending any school sponsored extracurricular activities during the time of the suspension.

6. CITIZENSHIP STANDARD: EXPULSION / Alternative Placement in

lieu of Expulsion

Students who have been expelled from Bay District Schools or received an Alternative Placement in lieu of Expulsion may not participate in extracurricular activities. Eligibility to participate in extracurricular activities is restored upon completion of the original terms or length of the alternative placement period or pending the outcome of a rehearing.

7. CITIZENSHIP STANDARD: CRIMINAL EPISODES

This policy refers to criminal episodes committed by students while in grades 6-12. A criminal episode is one or more felony criminal acts occurring within a twenty-four (24) hour period. Sanctions imposed on students will begin when the Principal of the school makes a formal determination that a criminal episode has been committed by the student. Formal determination is defined as receiving a copy of the disposition papers that states the charge and the court sanctions imposed on the student. It will be the responsibility of the student to present disposition papers (court documents) to the principal.

A student who participates in extracurricular activities will not commit any felony criminal episodes on or off school board property. Proof of a felony criminal episode shall include but not be limited to: the student's plea of guilty or nolo contendere to a crime or delinquent act which would have been a crime if the student were an adult or the student's participation in a pre-trial intervention program.

It is the responsibility of the student to inform school officials of any criminal offenses that may be pending or have been processed by the justice system. Students who are juvenile offenders will have the responsibility of providing the necessary court documentation (disposition statements) detailing the legal actions taken by the justice system. Juvenile offenders who have been processed (have disposition statements) by the justice system will not be allowed to participate until the disposition statements have been presented to the principal so that the student's case may be processed by school officials.

SANCTION

If the student participates in a felony criminal episode, the

student will be suspended from participating in all school sponsored extracurricular activities for one (1) calendar.

IMPOSITION OF SANCTIONS
