

18.13 For the 2021-2022 School Year

The District will commit a maximum of \$200,000 this school year for elementary classroom teacher emergency coverage funds. A committee comprised of three union representatives and three district representatives will meet within 14 days of ratification to develop a disbursement plan. Funds will not be paid retroactively but will be applied to approved instructional vacancies, not TDY days, created after the date of contract ratification.
