

Bay District Schools Out of Field Teachers, Updated 08/14/2019

We are required by Florida Statute 1012.42 to publish a list of teachers who will be teaching one or more class periods out-of-field for the 2019-2020 school year. An out-of-field teaching assignment DOES NOT mean the teacher is not qualified, it simply means that he/she may be awaiting test results or paperwork from the Department of Education or may be teaching in an area that reflects his/her college coursework but not necessarily his/her current teaching certification. This list is subject to change as schedules are finalized closer to the beginning of the school year and as classes are leveled during the first month of school. Teachers' names may also be removed as they finalize their certification in the previously listed out-of-field area.
